Suzuki accessories are designed specifically for Suzuki vehicles and are subjected to the same quality standards as the vehicles themselves. We would like to draw your specific attention to the fact that only Suzuki original accessories are tested and approved by Suzuki. The requirements they have to meet are set out in the relevant manuals. Under certain circumstances, the installation and/or usage of other accessory parts may therefore have a negative impact on the characteristics of your vehicle as set out in the design specifications, thereby impairing riding safety. Suzuki cannot under any circumstances be made liable for damage occurring from the use of any accessory that is not a Suzuki original accessory. Please always check and ensure that all requirements in your country are fulfilled.

Subject to engineering and design modifications without prior notice. Please consult the current price list for details of accessory prices.

WVTA – The EC Whole Vehicle Type-Approval (EC WVTA) is a mandatory system that applies to passenger cars and motorcycles. The WVTA ensures that these vehicles (and their trailers) comply with all the relevant EC directives on safety and environmental requirements. It also confirms that adequate arrangements for ensuring conformity of production have been taken by the manufacturer and, where necessary, testing has been undertaken.

WVTA's and type-approvals of individual systems, components and separate technical units are communicated amongst member states. In effect, any item included in the WVTA does not require additional certification.
